

# Remote Control Valves

## Panel Mounted Remote Control Valves

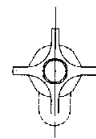

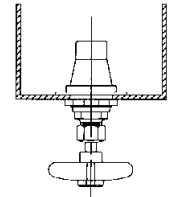

WaterSaver panel mounted remote control valves are installed on the front exterior face of the fume hood. By eliminating the extension rod between the valve and handle, the user has more precise control of the valve. Maintenance of the valve is greatly simplified, since all of the working components of the valve are accessible from the front exterior face of the hood.

**L739** Panel Mounted Remote Control Valve for Angle Front Hood. Specify right hand or left hand when ordering.

L739

**L740** Panel Mounted Remote Control Valve for Straight Front Hood.

L740

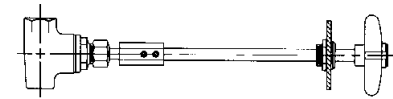

## Rod-Type Remote Control Valves

**L3185** Angle Pattern Remote Control Valve with Extension Rod, Guide Plate and Handle.

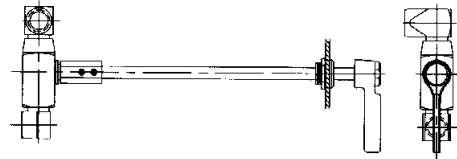

L3185

**L2885** Straight Pattern Remote Control Valve with Extension Rod, Guide Plate and Handle.

L2885

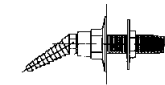

**L4285B** Remote Control Ball Valve with Extension Rod, Guide Plate and Handle. Valve is certified for gas service by the American Gas Association (AGA) and the Canadian Gas Association (CGA), and is recommended for ADA-compliant applications.

L4285

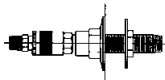

# Remote Control Outlet Fittings

**L122WSA** Panel mounted flange with angle serrated hose end and mounting shank.

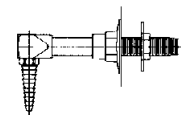

L122WSA

**L123WSA** Panel mounted flange with quick connect fitting and mounting shank.

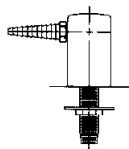

L123WSA

**L151WSA** Panel mounted flange with nipple, elbow, straight serrated hose end and mounting shank.

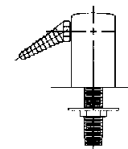

L151WSA

**L135WSA** Deck or panel mounted turret with straight serrated hose end and mounting shank.

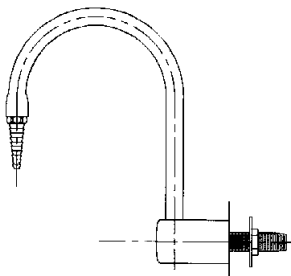

L135WSA

**L136WSA** Deck mounted turret with angle serrated hose end and mounting shank.

L136WSA

**L171WSA** Panel mounted turret with 6" rigid gooseneck and mounting shank.

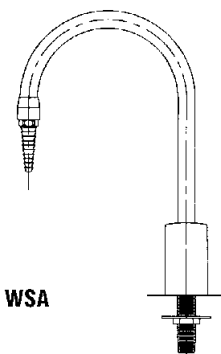

L171WSA

**L174WSA** Panel mounted turret with 6" rigid/swing gooseneck and mounting shank.

**L181WSA** Deck mounted turret with 6" rigid gooseneck and mounting shank.

**L184WSA** Deck mounted turret with 6" rigid/swing gooseneck and mounting shank.

*Note: If vacuum breaker is required, add suffix "VB".*

L181WSA

# Remote Control Assemblies

## Ordering Instructions

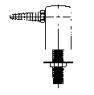

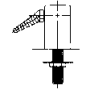

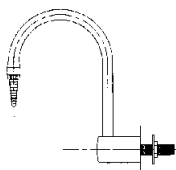

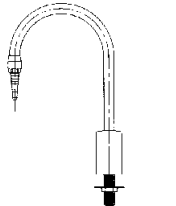

To order remote control assemblies, please proceed as follows:

1. Select the desired remote control valve. Specify:
  - a. Valve service (cold water, gas, air, vacuum, etc.).
  - b. Valve construction (by replacing ? with the suffix "N" for needle valve, "FCN" for fine control needle valve, "W" for water valve, or "S" for steam valve).
  - c. For L739 and L4285B valves, whether valve is for right hand or left hand mounting.
2. Select the desired outlet fitting. Specify finish (chrome plated, color-coded epoxy, etc.).
3. On the table below, find the desired valve and outlet fitting and read

across and down to find the appropriate assembly number.

4. For assemblies using rod-type valves, specify:
  - a. "L" dimension, measured from the centerline of the valve outlet to the top of the index disc. If the "L" dimension is not specified, a standard dimension of 20" will be furnished.
  - b. Type of guide plate desired, as follows:
    - PA** Flat guide plate with screws for straight panel
    - PB** Threaded guide plate for straight panel
    - PC** 45 degree angle guide plate
    - PD** Press-in guide bushing for straight panel
